

Job Title: Physical Therapist (In-Patient)
Department: Rehab Services
Classification: Exempt
Reports to: 1. Rehab Manager
2. Vice President of Operations
3. Chief Executive Officer

Summary

To provide professional physical therapy service by performing evaluations, establishing treatment programs and administering PT procedures (including wound care) to patients in the areas of inpatient/outpatient, birth to geriatrics.

Essential Functions

- Communicate with other members of the Rehab department routinely regarding caseload and the need for assistance and based on daily caseload.
- Document on medical record according to department policies and procedures - evaluation, progress notes, re-evaluations, discharge summaries.
- Ensure all patients have been referred by a physician (designated Licensed Independent Practitioners-per State Board) before rendering PT services.
- Provide detailed assessment; +/- motor and sensory evaluation, +/- analysis of functional status following departmental guidelines.
- Complete assessments in a timely manner per PT policies and procedures.
- Develop a treatment plan and appropriate PT intervention.
- Establish goals that are functional and measurable.
- Provide patient/family goals as component of the treatment plan.
- Complete patient and family caregiver education.
- Administer appropriate treatments and trains patient/significant other in care.
- Monitor patient progress/response to therapy and alter treatment plan as required and also correspond with referral source as required.
- Submit accurate charges based on services rendered according to department policies and procedures.
- Assess the need for and recommend the use of an assistive device(s) to increase a patient's functional independence.
- Fabricate/orders and monitor the use of splints/orthotics as indicated and according to the department policies and procedures.
- Demonstrate knowledge of standards of PT care when implementing PT interventions.
- Demonstrate an active role in acquiring/maintaining a patient caseload that satisfies productivity standards.
- Support concept of team treatment with the use of PTA's as appropriate.
- Provide departmental in-service after attending a continuing education seminar.
- Assist with departmental policies and procedures as instructed.
- Actively participate in the orientation/clinical supervision of TAH PT dept. volunteers, new staff, students of clinically affiliated schools.

Education/Experience

- Must have a degree in physical therapy from an approved school. Must hold a license for physical therapy current in the state of Pennsylvania and/or be working towards getting a license as would be the case of new graduates.
- Computer skills necessary including word processing and the use of the Internet. Experience in spreadsheets and databases is desired.
- Stroke education required.

Knowledge, Skills and Abilities

- **Required to maintain absolute confidentiality of patient care, patient accounts and hospital related matters.**
- **Required to abide by, and comply with, the provisions of the TAH Corporate Compliance Policy.**
- Must be able to communicate and exchange information effectively:
- Receive and exchange treatment information with physicians, and provide education when necessary.
- Provide explanations to patients, families and/or significant others and visitors for treatment plan, procedure and purpose of the P.T. intervention.
- Provide a means to facilitate effective treatment to patients.
- Communicate in a positive environment to all members of the physical therapy department and Titusville Area Hospital staff.
- Provide instruction to students, volunteers, observers.
- Analytical skills and organizational skills to develop and implement a plan for physical therapy care appropriate to the unique needs of the patient. Problem solving in a timely, efficient manner concerning patient's mental and physical wellbeing to enhance a patient's functional independence.
- Ability to concentrate, prioritize, plan, react calmly and perform as a professional physical therapist to resolve patient care problems, interact with patients, families and other team members, in occasional stressful situations.
- Required to utilize positive Guest Relations principles in all interactions with patients, families, peers, third party payers and all members of the healthcare team.
- Required to establish and maintain the ability to communicate effectively both verbally and in writing with a variety of socioeconomic, religious and culturally diverse populations of patients, clients, families and the general public in order to gain confidence and cooperation and to establish and maintain contact with facility staff and others.
- Required to abide by, and comply with, established Departmental and TAH policies, procedures and standards.
- Required to establish and maintain acceptable level of attendance.
- Required to perform the duties of the position in a safe and efficient manner.
- Required to assist in maintaining the cleanliness of the work areas.
- Ability to remain calm and perform effectively during critical/emergency situations and pending deadlines.

- Ability to adapt to a wide range of physical and emotional situations and to seek assistance in the application of procedures sufficient to overcome problems.
- Ability to adapt working times or methods and perform effectively in order to meet established, critical deadlines.

Work Environment

- Patient care environment, inside climate controlled environment with little exposure noise and dust. Occasional exposure to variations in temperature with moist heat and cold packs, exposure to electrical appliances. Employee may be required to perform onsite consulting for industries and/or businesses.
- May be subject to patient care activities, occasional exposure to communicable diseases. May be required to deal with patient elements.
